

You Don't Need The Weight

By Todd Keating

Yeah

Verse 1:

A gun is fired
The shot goes higher
Believe when I say
You don't need the weight

Verse 2:

All things ascending
Will soon be descending
And all at the same rate
You don't need the weight

Chorus:

Solve for "y"
Remember that you know "a"
Solve for "y"
Accelerations always nine point eight
Solve for "y"
I never wanna hear you say
I don't know the weight

Verse3:

Do not admire
A falling tire
As it falls towards your face
You'll be a pancake

Chorus:

Bridge:

Now you can see we're not falling apart
We're descending equally, yeah
No matter the distance
You'll hit the ground
At the same time as me...
All things ascending
Will soon be descending
And all, and all, and all, and all

Don't wanna hit the ground
Remember that you know "a"
Accelerations always nine point eight
I never wanna hear you say
I don't know the weight
(Chorus) x2
'Cause you don't need the weight
